

SQAD-6 Quality Control Notice (QCN)

Sub Code: CNTM

Contaminant content and limitation

Each item or material ordered for which this quality statement is specified requires that a "Certificate of Conformance" be provided attesting to the following:

- A. No mercury, lead, or other heavy metal, or low melting point elements were used in the processing of these materials.
- B. No elements known to be harmful to stainless steel and nickel alloys, such as leachable sulfides or chloride, were used in the processing of these materials.

If any of the above elements are present in the material to be delivered, a chemical test report (see CHEM) certifying amounts (PPM) of such elements shall be included with the shipment. Copies of the test report shall be transmitted to the responsible Exelon Procurement Agent before shipment to obtain Engineering approval, unless otherwise authorized by the Exelon PO/Contract and its references
